

## **Cover Letter**

Dear Hr Kreativstorm,

I am writing to express my interest in the Remote Front-End Web Developer Internship at Kreativstorm, as advertised on LinkedIn. As a dedicated student currently pursuing a BS in Software Engineering at Iqra University, Islamabad, I am eager to apply my skills and passion for web development in a professional setting.

My academic journey has equipped me with a solid foundation in front-end technologies. I am proficient in HTML, CSS, and JavaScript, and have practical experience using React for creating dynamic and responsive web applications. Through self-initiated projects, such as developing an e-commerce front-end website and various educational websites, I have honed my ability to translate design mockups into interactive and user-friendly web interfaces.

In addition to my front-end skills, I have exposure to back-end technologies including Node.js, Express.js, and MongoDB. This knowledge enables me to understand the full stack of web development, making me a versatile candidate for this internship.

Although I lack formal industry experience, my self-motivation and commitment to learning have allowed me to independently acquire and apply new technologies effectively. I am confident that my strong work ethic and enthusiasm for web development will make me a valuable asset to your team. As a remote intern, I am fully committed to giving 100% effort to contribute meaningfully to your projects and goals.

Sincerely,

Muhammad Yousaf
